

Inscape Publico is a 501(c)(3) nonprofit architecture firm whose mission is to provide professional architecture services to nonprofits and the people they serve. We believe nonprofits deserve access to professional architecture services, thereby allowing them to leverage the power of design to increase the impact of their organizations. Inscape Publico jumpstarts nonprofit projects by providing envisioning sessions and schematic design services for significantly reduced fees. This results in the design solutions being turned into bricks and mortar solutions, ultimately allowing the nonprofit partners to make a positive impact in our community in the spaces Inscape Publico helps create.

about inscape publico

Inscape Publico has a large portfolio of successful projects at a variety of scales and building typologies, representing a collaboration of individuals dedicated to innovative, contemporary architecture that is socially responsible and environmentally sensitive. Though projects range in scale, building type, and budget, we remain consistent in creating an environment that allows for a recursive interaction of knowledge and ideas. We believe that better results come from a collective thought process.

our work

2,000

Average hours of pro bono architecture services provided to nonprofits annually

\$15,000,000

Funding raised by nonprofit partners leveraging our designs

14,000

Nonprofit stakeholders benefiting from our designed spaces annually

The Social Impact Design Celebration (SIDC) in November is the annual social event for all of those supporting social impact design in the architecture, design, development, and construction fields in the DC area. The evening with leaders will highlight the work of those dedicated to social impact design in the DC region, including an awards presentation and showcase of projects. The event will not only highlight the work of Inscape Publico, but also the many individuals and organizations dedicated to improving our communities through professional design.

The Excellence in Social Impact Design Awards recognizes those who have demonstrated passion, leadership, and excellence in the field of social impact design for the greater Washington, DC region. One project and one designer will be awarded at the SIDC.

social impact design celebration

- You will be recognized as annual supporters of Inscape Publico and sponsors of the Social Impact Design Celebration.
- Your investment will support Inscape Publico's design efforts on behalf of our many nonprofit partners.
